

# Home Learning Activity - Maths

Today, can you practice the months of the year?

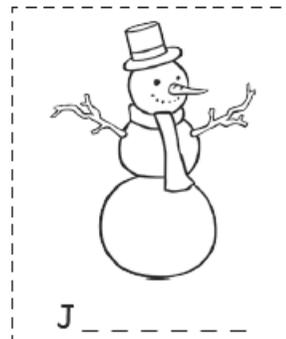

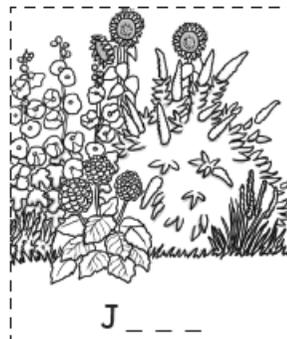

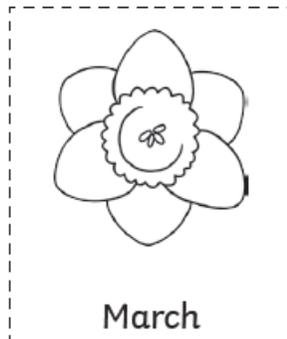

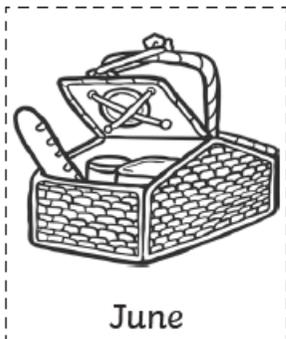

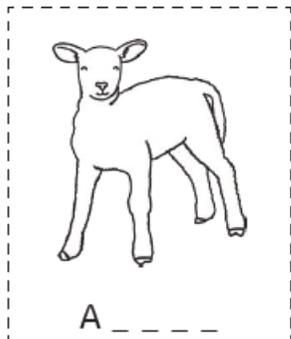

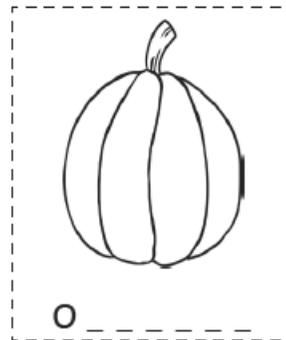

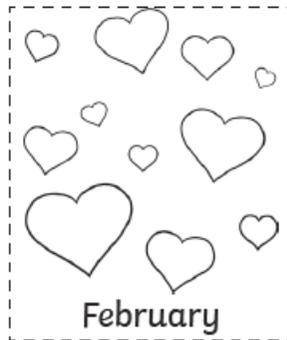

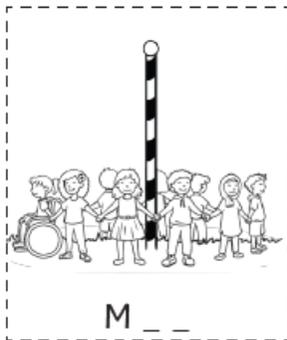

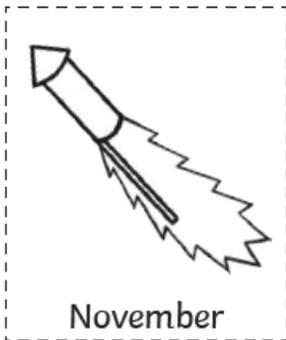

Challenge 1: Which month is your birthday in? Can you find out? What else happens in the month of your birthday? Miss Leggett's birthday is in June when lots of barbeques happen!

My birthday is in the month of:

---

A picture of my birthday month

Challenge 2: Can you remember all of the months of the year? Cut the pictures out and stick them in the right order.

# Home Learning Activity - Literacy

This week, read "The Tiny Seed" by Eric Carle. If you don't have the book to hand, you can watch it through this clip.

[https://www.youtube.com/watch?v=I\\_A\\_e6h-DhU&safe=active](https://www.youtube.com/watch?v=I_A_e6h-DhU&safe=active)

After you have listened to the story, have a go at completing Miss Leggett's challenges. You can choose as many as you like to complete.

1. What does a seed need to grow? Carry out a little experiment at home by putting seeds in different places and see what happens. Perhaps you could put one in a dark cupboard, or see what happens if you don't water a seed? Record your results and share them with me.
2. The story begins "It is Autumn." Which time of year is Autumn in? Can you find out about the other seasons? Which season are we in now?
3. How many different seeds can you find at home? Are there any seeds hiding in your fruits and vegetables? Can you tell me about the seeds you find? What will they grow into?

## Reading Challenge

- ⇒ Can you sequence the story and tell me what happened to the tiny seed in all of the different seasons?
- ⇒ Draw a picture of your favourite part of the story
- ⇒ Are there any new words you have come across in "The Tiny Seed"? Can you write them down and find out what they mean?

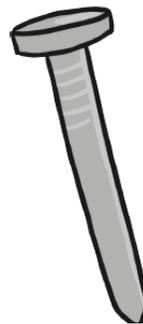

# Home Learning Activity - Spelling

These words are all jumbled up! Can you show me the correct way to write them? Remember when using phoneme frames, write one sound in each box (have a look at the first one Miss Leggett has done for you).
