

Coronavirus (Covid 19) Risk Assessment

“Be the Best You Can Be!”

It is a legal requirement for schools to update their school risk assessment in light of the new government guidance set out for schools during the period of national lockdown from 5 January 2021. As an addendum we have attached a template that covers the new and updated risks we should seek to mitigate during this period of Lockdown.

Ancaster Church of England Primary School needs to ensure the risks from coronavirus (COVID-19) continue to be managed effectively to help protect their staff, pupils, and the rest of the school community during the pandemic. This means that Governors and School Leaders are legally required to consider the risks staff and pupils face to minimise these risks. We must make sure a risk assessment has been undertaken to identify the measures needed to reduce the risks from coronavirus and make the school as safe as possible.

We have a legal duty to consult our employees on health and safety in good time. It may also be appropriate to involve pupils and parents in these discussions to help them understand the measures that are being put in place.

The risk assessment will be shared with staff. The risk assessment will be monitored and reviewed regularly, to ensure the measures are working and to take action to address any shortfalls.

The risk assessment below has been created in line with DfE guidance.

Please note that this risk assessment has been created in line with the current government guidance. This resource will be kept up-to-date with new guidance and any changes to current advice.
