*Co-opted Governor*

*I have been a co-opted Governor since September 2019, having joined to be a representative of the Parish Council which I've been a member of since December 2018. As a school governor I serve on the Finance and Resources sub-committee, to which I bring my experience of economic analysis and data review. I currently work as a Health Economic and Market Access Manager at Johnson and Johnson Medical Devices, which involves me determining how cost effective new medical devices will be when they are brought to the market.*

*I'm excited to be given the opportunity to support the school as a co-opted governor.*

*I live in Ancaster with my family; my son who currently attends Kings School in Grantham and my husband who works for Asda. I enjoy spending time with my family, reading, watching films and gardening.*
